

College Practical Codes

This repository contains my practical programs and implementations completed during my B.Tech Computer Science Engineering course.

Subjects Covered

Machine Learning

- Linear Regression
- Logistic Regression
- K-Nearest Neighbors (KNN)
- Decision Tree
- Classification Algorithms
- Data Preprocessing
- Other Machine Learning Practical Programs

⚡ Design and Analysis of Algorithms (DAA)

- Bubble Sort
- Merge Sort
- Quick Sort
- Insertion Sort
- Selection Sort

Repository Structure

```
college-practical-codes/
|
├── Machine-Learning/

|   ├── Classification/
|   └── Other-Programs/
|
├── DAA/
|   └── Sorting-Algorithms/
|       ├── Bubble-Sort/
|       ├── Selection-Sort/
|       ├── Insertion-Sort/
|       ├── Merge-Sort/
|       ├── Quick-Sort/
|       └── Heap-Sort/
```

└─ README.md

Technologies Used

- Python
- Jupyter Notebook
- NumPy
- Pandas
- Matplotlib
- Scikit-learn

Purpose

This repository is created to organize, practice, and maintain my college practical programs and algorithm implementations in one place.

Author

Mahendra Pratap

B.Tech Computer Science Engineering Student

★ Feel free to explore the repository and learn from the implementations!
